

Biology Double Award

Mock Revision List

Question	Detail	Revised
1	Labelling a plant cell Describing the differences between a plant and animal cell How is damaged tissue replaced?	
2	Labelling of cell structures Describe the role of the membrane and chloroplasts	
3	Using graphical data state the effects of enzyme of product volume. What is the effect of high temperatures on enzymes? State commercial uses for enzymes	
4	Describe an observed difference between two cells With reference to osmosis explain why the contents of the cell have shrunk. Analysis of a table of data linking to cells	

Units covered

Unit 1- Cells and enzymes

Unit 2- Osmosis
