

Chemistry Double Award

Mock Examination Revision List

Question	Part of the specification	Detail	Revised? √/X
1 Electronic structure	1 d,f,h,	Draw and write the electronic structure Understand the relationship between the electronic structure and the elements position in the Periodic table.	
2 Group 1	2 a,b,d,f,h	Reactions of group 1; observations and equations	
3 Group 7	2 c,d,h	Reactions of group 7 Properties Reactions with iron; Observations and equations	
4 Atomic Structure	1a,b,e,g,i	Which subatomic particles are responsible for <ul style="list-style-type: none">• The element• Isotopes• Ions And apply this understanding.	
5 Ionic Bonding	3 b,c,d	Describe and explain how an ionic bond forms. Describe the structure on ionic substances Explain how the bonding and structure affects its properties (the way an ionic substance behaves).
